A SPECIAL OFFER.

Remember that the PROGRESSIVE FARMER and the Patch Corn Sheller (price \$3) is offered to you for four dollars only. The President of Sandy Ridge Club has this to say of the Sheller, Winston, N. C., June 19, 1886. Col. L. L. Polk:—At your request I took the Patch Corn Sheller and Separator and tested it. I am so well satisfied with it that I want to keep it and pay you for it. It is decidedly the best corn sheller for the price that I have ever seen, and in my judgment it should have a large sale among our farmers. Respectfully, J. H. REICH.

THE EFFECT OF CLUBS.

The good effects of the organization of Farmers clubs is becoming manifest in this county. And as farmers see the good they are doing so they are taking more interest in them and the work of organizing more new ones goes on. By co-operation and unity of action many things can be done that farmers could not do singly. In addition to this when farmers are brought together in these meetings, they talk about matters in which they have a common interest, and suggest plans and schemes that before were not thought of or were impracticable. Here is a case in point. Spanish Ridge was one of the first organized in this county. It is composed of earnest, practical, progressive farmers. At their last meeting a couple weeks ago it was suggested that the neighborhood was much in need of a good school for the children. The suggestion met with a responsive answer and instantly the school was decided upon and steps taken to establish it. The members subscribed liberally in accordance with their ability, some as much as fifty dollars. The good work is going on and the result will be a good school house at a convenient distance for the children of the neighborhood to attend. The idea took from the start and was a success from the start, because the men who moved in it were in earnest. While such a spirit actuates them it is safe to predict that that club will prove a benefactor to the people amongst whom it exists and to the rising generation. The success of this commendable movement is but another illustration of how clubs may make themselves useful and powerful agents in doing good.
